ATTENTION HOME OWNER

It is not the position of the City of Long Beach Building Department to keep anyone from acting as General Contractor for the construction, repair or remodeling of his/her own home.

It is the intention of the Building Department to prevent a fraud being perpetrated by an unlicensed Building Contractor by having you obtain a permit for such construction for his benefit.

We want to ensure that, if you are going to act as your own General Contractor, that you understand some of the pitfalls and liabilities you undertake, to wit:

1. You may be financially responsible for any person that is working under your direction, which is injured while working on your job. This financial responsibility may include hospitalization cost, unemployment compensation, law suits for lost wages and workman's compensation. No existing homeowners or builders risk policy currently covers this type of loss.
2. You may be responsible for withholding taxes on all persons working under your direction and supervision. This includes unemployment taxes, social security taxes, and matching social security benefit taxes for each person.
3. If you do not obtain contractors general liability insurance, you may be personally liable for any injury of any person that is hurt on your property while construction is in progress. Your homeowners or builders risk policy does not cover this type of loss.
4. The Mississippi Supreme Court has ruled in a precedent setting case that all persons named as contractor on a building permit for the construction of a residence is deemed the responsible party for losses by future owners. **If major structural damage occurs up to ten years after construction, and if you are the general contractor on the permit, then you assume this responsibility.** This responsibility cannot be superseded by any secondary waiver with any person or uninsured company.
5. If a homeowner employs a General Contractor, it eliminates claims being made by subcontractors and others against the owner to a great extent. If an owner acts as General Contractor, this protection is lost.
6. The homeowner is also responsible for code violations and any penalties in addition to being responsible for corrections to be made, at your cost.

The above list is not intended to be a legal guide or advice, nor is it all encompassing, but only to point out some of the hazards of your acting as your own General Contractor.

I HAVE READ AND UNDERSTAND FULLY THE ABOVE AND FORGOING STATEMENT AND AGREE TO BE BOUND BY THE CONSEQUENCES OF MY APPLYING FOR THIS PERMIT.

HOMEOWNER'S CERTIFICATION OF COMPLIANCE

THE UNDERSIGNED HEREBY CERTIFIES UNDER PENALTY OF PERJURY THAT:

- I am the legal owner of record of the property described above and;
- The property described above is my principal place of residence, or if the application is for a permit to construct a new residence, the new residence will be my principle place of residence upon completion and;
- I am familiar with construction codes, city ordinances, and state laws applicable to such construction activity and;
- All work under the permit issued, as a result of this application, will be performed by me;
- All work must be completed in conformance with current applicable construction codes and must pass inspections by City Inspectors, and I will pay re-inspection fee for any re-inspections required as a result of the work not being ready for inspection or not being in conformance with the applicable code when inspected and;
- If after the work has been inspected the Building Official determines that I do not have the knowledge and/or experience to complete the work in conformance with applicable construction codes, the Building Official may stop the work and require me to engage a license and bonded contractor to complete the work.

HOMEOWNERS...Pulling your own permit is RISKY BUSINESS!

If you do not intend to do the work yourself and have been asked by someone without a contractor's license to pull a permit, you are at risk of financial harm.

Fraudulent contractors like to fool people. That's how they earn a living. They will tell you, "Don't worry, you don't need a permit...I've been doing this for years" or "Don't worry, I am licensed and bonded." Demand **WRITTEN PROOF** of their claims because **YOU** will pay the price if something goes wrong.

Protect yourself. Hire only licensed contractors. For more information or to verify whether a contractor is licensed visit our website at www.msdoc.us or contact us directly at 1-800-880-6161.

WHAT TO CONSIDER BEFORE PULLING YOUR OWN PERMIT

For most individuals, a home is the most valuable asset. In order to protect yourself and your investment, please consider the following before pulling your own building permit:

- Are you willing to take on all the responsibilities of a contractor?
- Are you willing to provide direct, onsite supervision of the construction?
- Are you willing to call for inspections to ensure all work meets proper building codes?
- Are you willing to be held accountable if shoddy work is performed or inspections failed?
- Are you willing to withhold employment taxes and provide workers compensation coverage?
- Are you willing to ensure the safety of individuals working on your property?
- Are you willing to be held liable if work causes damage to your neighbor's property?
- Do you know the basic principles of residential construction?

The Mississippi State Board of Contractors recommends that **ONLY** homeowners with significant experience and skill renovating or building homes and up to date knowledge of building codes pull their own permits. Otherwise, hire a licensed contractor.
