ORDINANCE NO. 602

**AN ORDINANCE BY THE MAYOR AND BOARD OF ALDERMAN OF THE CITY OF
LONG BEACH, MISSISSIPPI, "EROSION AND SEDIMENT CONTROL/POST
CONSTRUCTION RUNOFF" AND FOR RELATED PURPOSES.**

WHEREAS, the Mayor and Board of Aldermen of the City of Long Beach, Mississippi, having made due investigation therefore, do now find, determine, adjudicate and declare that it is necessary and proper to adopt the following ordinance "Erosion and Sediment Control/Post Construction Runoff" within the city limits of the City of Long Beach, Mississippi; now therefore,

BE IT ORDAINED BY THE MAYOR AND BOARD OF ALDERMEN OF THE CITY OF LONG BEACH, MISSISSIPPI, AS FOLLOWS:

During the construction process, soil is the most vulnerable to erosion by wind and water. This eroded soil endangers water resources by reducing water quality, and causing the siltation of aquatic habitat for fish and other desirable species. Eroded soil also necessitates repair of sewers and ditches, and the dredging of lakes. In addition, clearing and grading during construction causes the loss of native vegetation necessary for terrestrial and aquatic habitat, and to provide a healthy living environment for citizens of City of Long Beach.

As a result, the purpose of this ordinance is to safeguard persons, protect property, prevent damage to the environment and promote the public welfare by guiding, regulating, and controlling the design, construction, use, and maintenance of any development or other activity which disturbs or breaks the topsoil or results in the movement of earth on land in City of Long Beach.

SECTION 1. DEFINITIONS

Best Management	Structural device, measure, facility or activity that helps to Best Management Practice achieve storm water management control objectives at designated site.
Certified Contractor	An individual who has received training and is licensed by Mississippi Department of Environmental Quality to inspect and maintain erosion and sediment control practices.
Clearing	Any activity, which removes the vegetative surface cover.
